

# Oshkosh Corporation Named to Fast Company's 2024 World's Most Innovative Companies List

Mar 26, 2024 10:00 AM

OSHKOSH, Wis.--(BUSINESS WIRE)-- Oshkosh Corporation (NYSE: OSK), a leading innovator of purpose-built vehicles and equipment, announced today it has been named to [Fast Company's list of the World's Most Innovative Companies of 2024](#).

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20240326954988/en/>

Oshkosh Corporation announced today it has been named to Fast Company's list of the World's Most Innovative Companies of 2024. Fast Company recognized Oshkosh Corporation's electrification efforts. The company recently introduced three industry-altering, purpose-built electrified products: the McNeilus® Volterra™ ZSL™ zero-emission electric refuse and recycling vehicle, the Pierce® Volterra™ zero-emission fire truck and the Oshkosh® Striker® Volterra™ zero-emission Aircraft Rescue Fire Fighting (ARFF) vehicle. It is also developing the Next Generation Delivery Vehicle (NGDV) for the United States Postal Service (USPS), which includes both zero-emission battery-electric (BEV) and fuel-efficient low-emission internal combustion engine (ICE) models. (Graphic: Business Wire)

electrification, autonomy and IoT, as well as advanced analytics, modeling and simulation allow us to develop progressive systems, software and controls that transform the way people work," said Jay Iyengar, executive vice president and chief technology and strategic sourcing officer, Oshkosh Corporation.

It is also developing the Next Generation Delivery Vehicle (NGDV) for the United States Postal Service (USPS), which includes both zero-emission battery-electric (BEV) and fuel-efficient low-emission internal combustion engine (ICE) models.

"Our list of the Most Innovative Companies is both a comprehensive look at the innovation economy and a snapshot of the business trends that defined the year," said Fast Company editor-in-chief Brendan Vaughan. "We saw extraordinary innovation across the board in 2023, but we also saw a handful of clear patterns: the growing footprint and impact of AI, the triumphant return of live events, and great leaps forward in climate tech."

## **Forward Looking Statements**

This news release contains statements that the Company believes to be “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding the Company's future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this news release, words such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “believe,” “should,” “project” or “plan” or the negative thereof or variations thereon or similar terminology are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions, and other factors, some of which are beyond the Company's control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These factors include risks related to the Company's ability to successfully execute on its strategic road map and meet its long-term financial goals. Additional information concerning these and other factors is contained in the Company's filings with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this news release. The Company assumes no obligation, and disclaims any obligation, to update information contained in this news release. Investors should be aware that the Company may not update such information until the Company's next quarterly earnings conference call, if at all.
