

Oshkosh Corporation Reports Fiscal 2023 Third Quarter Results

Oct 26, 2023 7:01 AM

Reports Sales of \$2.51 billion, up 21 Percent

Reports Strong Orders Leading to a Backlog of Nearly \$16 Billion

Reports Diluted Earnings per Share of \$2.79 and Adjusted¹ Earnings per Share of \$3.04

Raises Fiscal 2023 Sales and Earnings Expectations

OSHKOSH, Wis.--(BUSINESS WIRE)-- Oshkosh Corporation (NYSE: OSK), a leading innovator of purpose-built vehicles and equipment, today reported fiscal 2023 third quarter net income of \$183.7 million, or \$2.79 per diluted share, compared to net income of \$66.9 million, or \$1.02 per diluted share, for the third quarter of fiscal 2022. Adjusted¹ net income was \$200.6 million, or \$3.04 per diluted share, for the third quarter of fiscal 2023 compared to \$75.9 million, or \$1.15 per diluted share, for the third quarter of fiscal 2022. Comparisons in this news release are to the third quarter of fiscal 2022, unless otherwise noted.

Adjusted¹ net income for the third quarter of fiscal 2023 excludes acquisition-related costs, amortization of purchased intangibles, a gain on the sale of a business and a loss on the sale of an equity method investment. Adjusted¹ net income for the third quarter of fiscal 2022 excludes amortization of purchased intangibles, charges for the release of cumulative translation adjustment losses upon the liquidation of foreign entities and an impairment of an intangible asset. In connection with the purchase of JBT AeroTech (AeroTech), which was consummated August 1, 2023, amortization of purchased intangibles is now being excluded from adjusted results for all periods.

Consolidated sales in the third quarter of fiscal 2023 increased 21.4 percent to \$2.51 billion primarily due to higher sales volume, the inclusion of \$135 million of sales related to acquisitions and improved pricing.

Consolidated operating income in the third quarter of fiscal 2023 increased 118.9 percent to \$256.5 million, or 10.2 percent of sales, compared to \$117.2 million, or 5.7 percent of sales, in the third quarter of fiscal 2022. The increase was primarily due to improved pricing, higher sales volume and improved mix, offset in part by higher incentive compensation costs. Adjusted¹ operating income in the third quarter of fiscal 2023 was \$276.3 million, or 11.0 percent of sales, compared to \$126.9 million, or 6.1 percent of sales, in the third quarter of fiscal 2022.

“We are pleased to report another quarter of strong performance highlighted by revenue growth of 21.4 percent, leading to an 11.0 percent consolidated adjusted operating margin and adjusted earnings per share of \$3.04 in the third quarter,” said John Pfeifer, president and chief executive officer of Oshkosh Corporation. “Our performance, highlighted by outstanding revenue and earnings growth, was driven by the benefits of supply chain and operational actions across the company over the past several quarters. Orders were solid in the quarter across all businesses, including our Access segment, and reinforce our positive outlook for 2024. In summary, our

investments in operations and product technologies are paying off as we transition to a more resilient business.

“We are also pleased with performance improvements in our Vocational segment and the progress on our AeroTech integration. We are confident in AeroTech’s technology, product offerings and secular growth opportunities in the air cargo and air travel support businesses.

“We announced several key electric vehicle contracts in our Vocational segment during the quarter, including Striker Volterra ARFF orders for the new airport under construction in Sydney, Australia and longtime customer Dallas Fort Worth International Airport. We also announced an order for 50 McNeilus Volterra ZSL units, North America’s first fully integrated, zero emission electric refuse collection vehicle. With our technology leadership and strong product offerings, we are confident in the outlook for electric vehicles and the profitable growth they will drive for our company.

“As a result of our strong third quarter performance and our positive outlook, we are increasing our expectations for 2023 earnings per share to be in a range of \$8.75 and 2023 adjusted earnings per share to be in a range of \$9.50. With our strong backlogs, leading technologies, positive market sentiment and the strength of our people, we are well positioned for 2024 and beyond,” added Pfeifer.

Factors affecting third quarter results for the Company’s business segments included:

Access - Access segment sales for the third quarter of fiscal 2023 increased 27.0 percent to \$1.32 billion as a result of improved sales volume, higher pricing in response to higher input costs and the inclusion of sales of \$19.0 million related to the Hinowa acquisition.

Access segment operating income in the third quarter of fiscal 2023 increased 93.5 percent to \$229.9 million, or 17.4 percent of sales, compared to \$118.8 million, or 11.4 percent of sales, in the third quarter of fiscal 2022. The increase was primarily due to higher sales volume, improved price/cost dynamics and improved product mix, offset in part by higher incentive compensation costs and increased operating expenses to support the higher sales levels.

Adjusted¹ operating income in the third quarter of fiscal 2023 was \$231.8 million, or 17.6 percent of sales, compared to \$123.5 million, or 11.9 percent of sales, in the third quarter of fiscal 2022.

Defense - Defense segment sales for the third quarter of fiscal 2023 decreased 3.6 percent to \$500.1 million primarily due to lower Joint Light Tactical Vehicle program volume offset in part by higher Family of Medium Tactical Vehicle sales volume.

Defense segment operating income in the third quarter of fiscal 2023 increased 635.5 percent to \$22.8 million, or 4.6 percent of sales, compared to \$3.1 million, or 0.6 percent of sales, in the third quarter of fiscal 2022. The increase was due to unfavorable cumulative catch-up adjustments on contract margins in the third quarter of 2022 and a gain on the sale of a business.

Adjusted¹ operating income in the third quarter of fiscal 2023 was \$16.1 million, or 3.2 percent of sales, compared to \$4.6 million, or 0.9 percent of sales, in the third quarter of fiscal 2022.

Vocational - Vocational segment sales for the third quarter of fiscal 2023 increased 35.4 percent to \$692.6 million due to the inclusion of sales related to the AeroTech acquisition, improved sales volume and higher pricing in response to higher input costs, offset in part by the sale of the rear discharge mixer business. AeroTech had sales of \$115.8 million from the August 1, 2023 acquisition date to September 30, 2023.

Vocational segment operating income in the third quarter of fiscal 2023 increased 63.6 percent to \$52.5 million, or 7.6 percent of sales, compared to \$32.1 million, or 6.3 percent of sales, in the third quarter of fiscal 2022. The increase was primarily due to improved price/cost dynamics, improved mix and higher sales volume, offset in part by acquisition costs, the amortization of inventory fair value step-up and higher amortization of purchased intangibles related to the AeroTech acquisition.

Adjusted¹ operating income in the third quarter of fiscal 2023 was \$77.1 million, or 11.1 percent of sales, compared to \$35.6 million, or 7.0 percent of sales, in the third quarter of fiscal 2022.

Corporate - Corporate costs in the third quarter of fiscal 2023 increased \$11.9 million to \$48.7 million due to higher incentive compensation, stock-based compensation and engineering costs.

Interest Expense Net of Interest Income - Interest expense net of interest income in the third quarter of fiscal 2023 increased \$6.8 million to \$17.7 million due to increased borrowings related to the acquisition of AeroTech.

Provision for Income Taxes - The Company recorded income tax expense in the third quarter of fiscal 2023 of \$55.3 million, or 22.9 percent of pre-tax income, compared to \$32.2 million, or 32.4 percent of pre-tax income, in the third quarter of fiscal 2022. Income tax expense in the third quarter of fiscal 2022 was elevated due to an anti-hybrid tax matter in a foreign jurisdiction that was resolved in the fourth quarter of fiscal 2022.

Nine-month Results

The Company reported net sales for the first nine months of fiscal 2023 of \$7.19 billion and net income of \$447.2 million, or \$6.80 per diluted share. This compares with net sales of \$6.08 billion and net income of \$98.8 million, or \$1.49 per diluted share, for the first nine months of fiscal 2022. The increase in net income for the first nine months of fiscal 2023 was the result of improved price/cost dynamics, higher sales volume, improved product mix and the absence of a charge of \$18.1 million associated with foreign anti-hybrid tax legislation due to comments made by taxing authorities of the applicable jurisdiction during the first quarter of fiscal 2022, offset in part by higher incentive compensation costs, higher operating expenses and AeroTech-related acquisition expenses, including acquisition costs of \$12.9 million, amortization of purchased intangibles of \$6.2 million and amortization of inventory fair value step-up of \$6.2 million.

Adjusted¹ net income for the first nine months of fiscal 2023 was \$487.8 million, or \$7.41 per diluted share, compared to \$130.2 million, or \$1.96 per diluted share in the first nine months of fiscal 2022.

Fiscal 2023 Expectations

The Company expects its fiscal 2023 diluted earnings per share to be in the range of \$8.75 and adjusted¹ earnings per share to be in a range of \$9.50 on projected net sales in the range of \$9.65 billion. These expectations compare to previous estimates of diluted earnings per share of \$7.65 and adjusted¹ earnings per share of \$8.00 on projected net sales of \$9.5 billion. Excluding amortization of purchased intangibles had the effect of increasing estimated adjusted¹ earnings per share by approximately \$0.35, net of tax, compared to previous estimates.

Dividend Announcement

The Company's Board of Directors today declared a quarterly cash dividend of \$0.41 per share of Common Stock. The dividend will be payable on November 27, 2023 to shareholders of record as of November 13, 2023.

Conference Call

The Company will host a conference call at 9:00 a.m. EDT this morning to discuss its third quarter results and its fiscal 2023 outlook. Slides for the call will be available on the Company's website beginning at 7:00 a.m. EDT this morning. The call will be simultaneously webcast. To access the webcast, go to oshkoshcorp.com at least 15 minutes prior to the event and follow instructions for listening to the webcast. An audio replay of the call and related question and answer session will be available for 12 months at this website.

Forward Looking Statements

This news release contains statements that the Company believes to be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding the Company's future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this news release, words such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "should," "project" or "plan" or the negative thereof or variations thereon or similar terminology are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond the Company's control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These factors include the cyclical nature of the Company's access equipment, fire apparatus, refuse collection and air transportation equipment markets, which are particularly impacted by the strength of U.S. and European economies and construction seasons; the Company's estimates of access equipment demand which, among other factors, is influenced by historical customer buying patterns and rental company fleet replacement strategies; the impact of orders and costs on the U.S. Postal Service contract; the impact of severe weather, war, natural disasters or pandemics that may affect the Company, its suppliers or its customers; the Company's ability to increase prices or impose surcharges to raise margins or to offset higher input costs, including increased raw material, labor, freight and overhead costs; the Company's ability to accurately predict future input costs associated with Defense contracts; the Company's ability to attract and retain production labor in a timely manner; the Company's ability to successfully integrate the AeroTech acquisition and to realize the anticipated benefits associated with the same; the strength of the U.S. dollar and its impact on Company exports, translation of foreign sales and the cost of purchased materials; the Company's ability to predict the level and timing of orders for indefinite delivery/indefinite quantity contracts with the U.S. federal government; budget uncertainty for the U.S. federal government, including risks of future budget cuts, the impact of continuing resolution funding mechanisms and the potential for shutdowns; the impact of any U.S. Department of Defense solicitation for competition for future contracts to produce military vehicles; risks related to the collectability of receivables, particularly for those businesses with exposure to construction markets; the cost of any warranty campaigns related to the Company's products; risks associated with international operations and sales, including compliance with the Foreign Corrupt Practices Act; risks that a trade war and related tariffs could reduce the competitiveness of the Company's products; the Company's ability to comply with complex laws and regulations applicable to U.S. government contractors; cybersecurity risks and costs of defending against, mitigating and responding to data security threats and breaches impacting the Company; the Company's ability to successfully identify, complete and integrate other acquisitions and to realize the anticipated benefits associated with the same; and risks related to the Company's ability to successfully execute on its strategic road map and meet its long-term financial goals. Additional information concerning these and other factors is contained in the Company's filings with the Securities and Exchange Commission, including the Form 8-K filed today. All forward-looking statements speak only as of the date of this news release. The Company

assumes no obligation, and disclaims any obligation, to update information contained in this news release. Investors should be aware that the Company may not update such information until the Company's next quarterly earnings conference call, if at all.

About Oshkosh Corporation

At Oshkosh (NYSE: OSK), we make innovative, mission-critical equipment to help everyday heroes advance communities around the world. Non-GAAP Financial Measures

The Company reports its financial results in accordance with generally accepted accounting principles in the United States of America (GAAP). The Company is presenting various operating results both on a GAAP basis and on a basis excluding items that affect comparability of results. When the Company excludes certain items as described below, they are considered non-GAAP financial measures. The Company believes excluding the impact of these items is useful to investors in comparing the Company's performance to prior period results. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's results prepared in accordance with GAAP. The table below presents a reconciliation of the Company's presented non-GAAP measures to the most directly comparable GAAP measures (in millions, except per share amounts):
