The Oshkosh Defense JLTV is designed for the future battlefield with reconfiguration capabilities to meet the demands of the Warfighter's evolving mission requirements. It offers the world's only light tactical vehicle with the protection, off road mobility,

network capability and firepower options to maneuver with combat formations.

"The men and women of Oshkosh Defense take great pride in what they do," said George Mansfield, Vice President and General Manager of Joint Programs for Oshkosh Defense. "Designing, building, and delivering the world's most capable light tactical vehicle, the Oshkosh JLTV, is one of our greatest accomplishments. And we plan to continue building the Oshkosh JLTV for many years to come."

As part of this order, 59 vehicles will be delivered to NATO and non-NATO allies – including Lithuania, North Macedonia, and Brazil. As the industry-leading tactical vehicle manufacturer, Oshkosh Defense takes great pride in working with both domestic and international customers to give the Warfighter a necessary technological edge at the best price. Oshkosh Defense strives every day to meet or exceed our customers' ever-changing needs with next-generation defense technologies and advanced mobility systems.
